gvSIG version: 1.12.0	Add-on version:
gvSIG build:	Add-on build:
Operative System:	Add-on resolve version:
Keywords:	Add-on resolve build:
Has patch: No	
Description	
<p>i18n strings of splash screen are not translated, even if they are in the text_xx.properties file. It's a cosmetic issue, but also strategic in matter of internationalization. Cheers, Antonio.</p>	

History

#1 - 07/30/2012 04:52 PM - Francisco Puga

- File text_it.properties added
- Assignee set to Francisco Puga

splash screen is internationalized through the properties of the text_it.properties file of the _fwAndami project. They are not gotten from the main properties file of the appgvSIG project.

I attach the file that should be translated.

Anyway this behaviour can be changed but right now i prefer translate the file

#2 - 07/30/2012 06:41 PM - Antonio Falciano

- File text_it.properties added

Hi Francisco, you're right! Here's the updated version of the _fwAndami properties file in attachment.

#3 - 07/30/2012 07:05 PM - Francisco Puga

- Status changed from New to Fixed

fixed in r38624

#4 - 02/20/2014 10:21 AM - Álvaro Anguix

- Project changed from Application: gvSIG desktop to | gvSIG desktop 1
- Target version deleted (1.12.0-final)
